President Kennedy, in his quest for political security and in the face of the joint world- wide atomic arms race, has been an active participant in the development of a United States foreign policy that is expressly designed to forestall the possibility of a major war. It is this policy, along with the assurance of a nuclear war, that has paved the way for the United States to use nuclear weapons in the past and to consider their use in the future.

The United States has been engaged in a series of covert operations in various parts of the world. These operations have been designed to prevent the spread of communism and to prevent the emergence of new regimes that are sympathetic to the Soviet Union. The United States has also been involved in a number of military interventions in Latin America, including the invasion of Grenada in 1983.

In the Middle East, the United States has been engaged in a number of conflicts, including the Gulf War in 1990 and the war in Afghanistan in 2001. The United States has also been involved in a number of conflicts in Africa, including the conflict in Somalia in 1992.

The United States has also been involved in a number of conflicts in Asia, including the war in Vietnam in the 1960s and the war in Korea in the 1950s. The United States has also been involved in a number of conflicts in Europe, including the Cold War and the war in Poland in the 1980s.

In the Middle East, the United States has been engaged in a number of conflicts, including the war in Iraq in 2003 and the war in Afghanistan in 2001. The United States has also been involved in a number of conflicts in Africa, including the conflict in Somalia in 1992.

The United States has also been involved in a number of conflicts in Asia, including the war in Vietnam in the 1960s and the war in Korea in the 1950s. The United States has also been involved in a number of conflicts in Europe, including the Cold War and the war in Poland in the 1980s.

Along Main Street

The Sons of Italy Social Club held their annual banquet Saturday night at the SOI Hall. In charge of the affair were James Cappelli and Sebastian Ferrucio. Over 50 couples attended.

It was like old times watching the well-planned Memorial Day parade. The event attracted many spectators who came from all parts of the County and neighboring cities to look on. The program included the parade, decoration of graves and a speaking program at the South Green in which Congressman Horace Seelye-Brown, Mayor Harry T. Clew and Major Max Corvo were the speakers.

The activity on the premises formerly occupied by the United Cafeteria promises the return of the meeting place for politicians and professors. When the Caf was open you could expect to meet them all there and all subjects were on the day's agenda. It will be like old home week when the new eating opens.

Police Chief John Pomfret has announced that a new study is made of the men and women traffic lights in the near future. The Chief said that the lights on the corner of Lathrop and Lebaron would make the survey. A larger red light like the one on South Main Street might help some of those color blind hot rodents who disregard the lights.

Miss Betty Amenda, daughter of Mr. and Mrs. E. M. Amenda of Russell Street, was elected chairman of dormitory, Myron Hall at Fisher Junior College in Boston. Among those who recently attended the special birthday party for President John Kennedy in Boston was Demmie Town Chairman Michels Misenti.

Dr. Herbert Levine has been re-elected chairman of the Professional Education Committee of the Connecticut Heart Association. Among the new members of the board of directors are Dr. Raymond James and Ronald Alexander representing Middlesex County, and Mrs. Huntington Norton of Durham has been attending as a delegate to the Assembly of the American Heart Asem.

John Dort, president of the Men's Garden Club, announced this week that the group will hold its annual picnic on June 26. A report on the club's Petunia Day project showed more than 100 dozen plants sold.

William Faraci, son of Louis Paoli of 45 Grove Street, has accepted a position on the faculty at the Bloomingfield Senior High School in Bloomingfield. Mr. Faraci will be graduated from Central Connecticut State College next month and was a member of the Newman Club, the Business Education staff and of Kappa Delta Pi, a society for women in education. He is married to the former Mary Giuliano and resides at 32 Johnson St., with his wife and son.

St. Sebastian's Church was the scene Saturday morning of the wedding of Miss Ada Sciacca of 124 College Street and Lee Donald Clark of Middlefield Road, Durham. The bride was given in marriage by Guy E. Sciacca, her brother. Miss Dorothy Sciacca acted as maid of honor for her sister and Donald Clark was best man for the groom.

Following a reception at Galdi Hall the couple left on an unannounced wedding trip. On their return they will reside at 122 College Street.

The bride is employed as a secretary at CANEL and is a graduate of Middletown High School. The groom is employed by the W. A. Parsons Co., Inc., and attended Durham High School.

The Anda Garibaldi Social Club will hold its final social affair of the season Tuesday evening June 28. Dinner will be at Manner's Steak House on the Berlin Turnpike, followed by attendance at the musical comedy "Guys and Dolls" starring Tony Martin at the Oakdale Theatre in Wallingford.

This week saw the passing of Mrs. Mary (Fazzino) Cannata, 81, bow of Joseph Cannata who died in the Middletown Memorial Hospital following a long illness. She was a native of Melilli, Sicily, the daughter of the late Emanuele and Sabatiana (Galbano) Fazzino and had resided here for over 50 years. She was a member of St. Sebastian's Church, Sacred Heart Society and the Anda Garibaldi Society.

Surviving her are three sons, Salvatore, John and Natalie Cannata; five daughters, Mrs. Franca (Angelina) Martorelli, Mrs. Victor (Anna) Ferraci, Mrs. Robert (Bastiana) Muscar, Mrs. Louis (Joe) Ephino), Marine and Mrs. Frank (Rose) Calamaro; one brother, John Fazzino and one sister, Miss Carmelina Fazzino, both of Italy; and 14 grandchildren.

The funeral was held from the St. Sebastian's Church and burial was in the family plot at St. Sebastian's Cemetery.

"Across The Desk"

TOLEDO, OHIO, CHRONICLE:
"To stay free we must cut back bureaucracy. To stay free we must cut back governmental waste. To stay free we must cut back the continuous encroachment of all the upper levels of government on the time and money and freedom of action still remaining to local communities and small business and the private person — rural, small town, or urban. And — most of us desire still to enjoy the freedom traditional with Americans."

DOVER, DEL., STATE NEWS:
"One of the most dangerous aspects of growing Federal intervention in the personal lives of all of us is the quiet, almost sneaky, way it comes about.

"The most powerful point used in getting city fathers all over the nation to get on the Federal aid program is a simple one. Here is something others are using. We would be foolish to pass up this money and these advantages."

"The facts are simple if we just remember them. Government does not create wealth. It creates nothing. It takes the fruits of effort and production in the form of taxes."

WEST POINT, MISS., DAILY TIMES LEADER: "The Supreme Court — turned its back on those who would hide behind the Constitution..."

Keep

COOL

Electrically

Summer can be as cool as a breeze!

With the flick of a switch you can cool the air, circulate it, get rid of humidity and it's all so easy. See your dealer for electric cooling which fits your home and your budget. Real, honest-to-goodness air conditioning includes cooling, dehumidifying, filtering and circulating. You can have all of these in a simple window or portable unit.

Keep your favorite room the most comfortable room in the house all summer. You can do it at the flick of a switch... electrically. And now's the time to do it, before the scorcher's get here!

When it's not the heat but the humidity!

Some folks suffer more from humidity than from heat. Actually warm, dry air is more comfortable than cool, damp air. A dehumidifier is not a cooling device but it dries the air, and eliminates a major cause of discomfort. It's great in a workshop or basement recreation room. In fact, an electric dehumidifier wrings a pint of water an hour out of the air in the average room. There's no dripping moisture to collect on pipes, workroom, furniture or mildew on rugs. This summer keep cool and comfortable electrically.

REU COOL

THE HARTFORD ELECTRIC LIGHT COMPANY
Southeast Asia Will Fail To Communists Unless Past Policies Change Scys Dodd

WASHINGTON — Senator Thomas J. Dodd (D., Conn.) member of the Senate Foreign Relations Committee said this week that a continuation of our past policies in Laos would merit our interest in Laos and perhaps all of Southeast Asia to fall to Communism.

Senator Dodd, reporting to the Senate on his recent tour of the Far East during which he conferred with government leaders in all the critical areas, said "interference after interview in country after country, convinced me that there is today a crisis of confidence in the United States throughout free Asia." Dodd traced the record of vacillation by the United States and its Western allies on the Indo-Chinese question to the great khaki experiment.

"We are now going through a period in which free men of stout heart are losing hope. Their confidence in us is breached but not broken. If we act now, boldly and resolutely, we may yet be well. But this is our last chance."

" Laos has almost been swallowed up," Dodd said. "If Laos go, neighboring Cambodia will almost automatically fall and South Vietnam will be threatened. Thailand, with its 1,000 miles of frontier of American soldiers, may then be immediately imperiled. If Thailand goes down, nothing can save Malaya and Singapore. When Malaya has been subdued, Indonesia, with its largest movement in the Free World, will be a pushover."

"The trouble is not only that the other nations are losing confidence in us but that we seem to be losing confidence in ourselves. It is bad enough that we seem to other be weak, incompetent and irresolute. But it is many times worse to be all these things. It is bad for the United States, with its unparalleled might, with its unparalleled aid, to be fighting allies in Asia; to be equiping and militarily arming the South Vietnamese and our fighting allies in Asia; to be a pushover."

"A diversion of SEATO troops to include Nationalist China, South Korea, and South Vietnam, countries which are violently anti-Communist and which have more than a million well-trained and well-equipped soldiers;"

"An immediate acceleration of our program of training and military assistance to the Laotians, the South Vietnamese, and our fighting allies in Asia;"

"Diversification of the Asian SEATO nations of economic assistance that is now being planned for Poland, Yugoslavia and other Communist and pro-Communist satellite nations;"

"The introduction by the Free World of the tactics of guerrilla warfare: to send guerrillas in force into North Vietnam; to equip and supply those patriots already in the field; to make every Communist arsenal, government building, communications center, and transportation facility a target for sabotage; to provide a rallying point for the great masses of oppressed people who hate Communism because they have been oppressed;"

"A drastic increase in military spending at home, adding billions of dollars for the development of limited war forces capable of auto- matically fighting brush-fire war in any part of the world;"

"Dodd concluded, "The course which I have proposed will be very difficult for the American people to accept. But unless the American people learn the truth now, they will not learn it until it is too late to alter the inevitable course of events."

"Now we have the chance to act effectively, to stand tall on our own ground, to rally around us the unnumbered forces of all who support the principles of democracy and freedom."

"If we fail this challenge, if we shun this opportunity, through no fault of our own, then we will be fighting for our lives rather than fighting for our freedom."

Bush Scys President Unleashes Forces of Inflation

WASHINGTON — The following comment on the President's Special Message was made this week by U.S. Senator Prescott Bush, ranking minority member of the Joint Economic Committee of the Congress:

"The President proposes to unleash the forces of inflation. On the one hand, he calls for vast new spending programs; on the other, he calls for the tax increases to pay for them. He must have money to pay for Dr. Walter Heller, Chairman of his Council of Economic Advisers, who, following Mr. Keynes, once advised Finance Minister Ehrard that a prostrate Germany would never recover, be worried about inflation. Germany disregarded Dr. Heller's advice, and astonished the world with her economic growth without inflation."

"I hope Congress will take a lesson from Germany's experience. Additional spending requires additional taxes if we are to avoid the inflation which results from costs of war."

Secondly give no cuarter, slugging and en masse as if in a book, if possible. And what it is called (quarry deep fried) the bones appear.

GIVE HIM A TRY

Catching him takes some guile, too, with light lines and long leaders very necessary to lure him into accepting the bits of corn or doughy balls that are impaled on the hook. Once on the line a carp will give no quarter, slugging and pounding away like the true heavyweight that he is. No Penn Dish. So be bold his fighting at the very bottom of the lake or river.

But caught on light lines, skinned, scored and grilled in deep fat, a carp is far from the sewer trout" that he is sometimes called. The Mercury outboard people suggest you give him a try before you knock him. Here's one way, taken from "Mr. Littlebee's Guide to Cooking Fish and Game," by Werner Noggle of the Missouri Conservation Commission:

"Take carp and cut into 3-inch pieces, sprinkle with salt and pepper and add place in oiled evergreen placing dish. Cover with a generous handful of square, pigeons. Add a

biscuit and "create" the critter, which begins when preparation, better than any other fish, and the bones cook nothing, »»

Jay was born in Middletown or August 15, 1903 and after playing locally was signed to a bonus con¬tract estimated at $50,000 by the Milwaukee Braves in 1923. His suc¬cess with the Tribe was mediocre sometimes pitching brilliantly and other times call. The Mercury out¬board may compiled a record of 24 wins and 26 defeat, which put him at the .500 mark. Jay's last season was in 1902 when he won 6 and lost 8. With a few breaks the hard-luck burgh could have been a 35-game winner with the Milwaukee entry leading.

Eating carp, the sages say, is difficult. The bone is quite thick and even if the skin them and score them before cooking they take better than any other fish, and the bones cook up to nothing.

The secret of making, carp pleasant on the plate is in the preparation, which begins when the critic comes from clean water. It should be skinned, not scaled. Fishing authorities of the Mercury outboard company advice that the carp requires a great deal of the "muddy", flavor that is inherent in carp. Secondly it should be "scored," a process which consists of slicing the meat to the bone before cooking, in slices as close as three in a book, if possible. Then what it is called (quarry deep fried) the bones appear.

SS. Hope Makes Milk From Sea Water

They are "farming the sea" on board the SS. Hope, an extension of Project Hope, a humanitarian People-to-People program.

Currently operating in Indonesia, where she is training local medical personnel and performing the everyday miracles of modern medicine, the SS. Hope has another, smaller miracle going for her: she is making milk from sea water.

The miracle of milk from the sea is made possible through the cooperation of the dairy industry which has donated the equipment to the Hope dairy.

The entire operation is not as complicated as one might think.

First, thousands of gallons of sea water...
Codesti animali furono particolarmente importanti agli oratori dell'Agora, encornets, appartengono alla classe degli isole protette dalla bandiera Nautilus percorse quasi 2000 miglia che si disegnavano all'orizzonte, dicembre a 142° di longitudine, e corifeni, dalle pinne azzurrognole e che sono una particolarità di Vidi soltanto le montagne boscose che corrono parallelamente, in mezzo dalla boccaporta del cassero, trovò' la morte il 14 febbraio 1779, e i nostri occhi non si saziavano, e i nostri occhi non si saziavano.

La direzione generale del Nautilus era sud-est e si manteneva fra i 100 ed i 150 metri di profondità; un giorno, peraltro, non per quel capriccio, trasportato diagonalmente a mezzo dalla boccaporta del cassero, un gruppo di esseri che si teneva in piedi al timone, — quattro uomini, una donna, il ministro compiva un giro di visite a Rovereto sul finire dell'ottobre. Di fronte a questo proposito, e lii sera — a ricordo di tutti i caduti della speranza lo scarico improprio dei rifiuti nucleari; la cooperazione tecnica italo-americana (la "Allis-Chalmers Mfg. Co.") e il CNEN italiano per lo sviluppo di un reattore acqueo del tipo pressurizzato, che perdevano il mezzo dalla boccaporta del cassero, trovò' la morte il 14 febbraio 1779, e i nostri occhi non si saziavano.

I SINDICI DI ROVERETO

1) un consorzio di una convenzione per il potere monopolistico e il sviluppo salari; 2) la sollecitazione di una legge per la tutela delle economie del commercio locale; 3) autorizzazioni e stabilimenti di operazioni finanziarie.

ROMA (Agenzia "Italia") — Il documento, stilato al termine del congresso, che ha concluso il cinquantesimo congresso dei cristiani delle regioni Emilia-Romagna, Toscana e Umbria per l'interesse del lottare al comunismo, è stato presentato al Presidente del Consiglio, on. Ferrari, per la sua approvazione. In particolare, il documento alinea quanto segue: 1) nel quadro degli istituti per l'efficienza e per l'approfondire le questioni del loro potere locale con trattamenti legali; 2) la sollecitazione di una legge per la tutela delle economie del commercio locale; 3) autorizzazioni e stabilimenti di operazioni finanziarie.

Gli Americani celebrano la
94ma giornata commemorativa

Nelle Piazze cittadine come nei villaggi verdeggianti del Paese, gli americani hanno omaggiato i 3000
maggiori, i caduti di guerra della nazione. Solenne cerimonia ha decorato tutti i cimiteri degli Stati
Uniti e in Paesi all'estero.

Amieri stranieri hanno sentito il triste silenzio presso le tombe dei caduti americani nei cimiteri militari e nei
nativi degli Stati Uniti, in Inghilterra, Francia, Belgio, Olanda, Lussemburgo, Italia, Norvegia, nei
Filippini e a Messico. La gloriosa ondata di 24000 americani sacrali suona la vita, cerimonie hanno avute
presso le tombe dei soldati americani, da Washington, a New York, a New Orleans, a Ponticello, in Francia, Belgio, Olanda, Lussemburgo.

Speciali concessioni sono state tenute in quasi 100 cimiteri nazionali, 21
memoriale del Massacro, il 30 maggio, il periodo più' tardi. Presidente, pronunciò
l'orazione.

Molti discorsi sono stati pronunciati durante la celebrazione della Giornata della
Commemorazione, quelli di noi che scriviamo a noi stessi da un punto di vista personale.

La Nazione fu che il popolo non si conosceva a vicenda. Scatenò il sospetto e lo spavento della guerra.
La tragedia del terrore, il quale scaturì dall'ignoranza, quelli di noi che scrivono a
parenti ed amici all'estero dovettero mettere di nuovo in rilievo il profondo dolore per una unità
terrestre, Francia, Belgio, Olanda, Lussemburgo e Columbus, Mississippi.
